## Nature reserve Aquatic LE Collection

The TACCIA Aquatic LE Collection receives its influence from one of our great seafaring animals – the stingray. A textured, flecked, stingray-like URUSHI surface gives way to undulating patterns of a solid custom lacquer below. Each Aquatic LE piece undergoes a meticulous hand-crafted process. Our artist mixes wajima dirt (or earth) powder with Urushi lacquer to bring out the unique three-dimensional texture of the Aquatic LE. The Urushi is applied and processed onto raw ebonite barrels, and then scrupulously sanded by hand to produce the final piece. Each Aquatic LE piece requires months of lacquer and handwork. Limited to 50 pieces, in fountain pen with 14K gold nib. The series is available in two patterns: [Coral Sea](#) and [Sapphire River](#).
