

TACCIA®

Fountain Pen Ink (13 colors)

Taccia Fountain Pen Ink is developed and made in Japan, and inspired by the Japanese way of seeing colors in a very pure, honest, and innocent way. All of the colors should give you the feeling you had when you were a child and saw a set of crayons for the first time. The Taccia Ink colors are very true to the way we believe the colors should look.

Kuro (Black)

Tsuchi (Golden wheat)

Cha (Brown)

Daidai (Orange)

Aka (Red)

Momo (Pink)

Ebi (Purple red)

Murasaki (Purple)

Ao (Blue)

Aoguro (Blue-black)

Sora (Sky blue)

Midori (Green)

Uguisu (Olive green)

蝦 EBI (PURPLE RED)	TFPI-WD40-07		

Nakabayashi

Taccia Inks have the perfect balance of permeability and viscosity so that it flows nicely on paper, but also is not harsh on the pen nibs.

The pH value of the ink is neutral, so the ink is carefully formulated so that it does not damage pen resins or celluloid.

Package is designed by Fountain Pen Illustrator, Hiroshi Sato.

He was born in Fukushima in 1978 and raised in Kyoto. Graduated from Kobe University. After working as illustrator and graphic designer, he worked for web production and publishing companies. In 2015, he launched "Solti Frog Design Studio" and started a career as a designer and fountain pen illustrator. Currently, he is pursuing how to enjoy painting with a new technique using a fountain pen.
